# Product Engineering

THE McGRAW-HILL MAGAZINE OF DESIGN ENGINEERING

FIVE DOLLARS A YEAR

# INDEX - 1955

## Volume 26

### January to December

### INCLUDING PRODUCT DESIGN HANDBOOK ISSUE FOR 1956

McGraw-Hill Publishing Company, Inc.
330 West 42nd Street, New York 36, N. Y.

## —A—

**Adhesives**

Adhesive bonded metal joints. Schwartz & Wittman ..... July 170
Adhesive bonding. J. L. Been..... May 181
Resinous type of plastic adhesive (H) Feb. 5
Strength of adhesive bonded metal joints (H) ..... Nov. 5

**Aeronautics**

All-magnesium plane ready for test flight (N) ..... May 192
Machine tools for the jet age..... Feb. 162
Plastic wings for guided missiles (H) June 5
Printed, high-resistance strain gages (H) ..... Aug. 5
Progress in VTO (N)..... Aug. 194
Water may be the means used for aircraft and rockets to crash thermal barrier (H) ..... Feb. 5

**Amplifiers, Electronic**

Amplifier packaged for resistance to shock and humidity (PD)..... Nov. 166

**Amplifiers, Magnetic**

Magnetic amplifier in processing line loop control (A)..... Sept. 303
Magnetic amplifiers as control components. Walter La Pierre..... Aug. 129
Magnetic amplifier control of d-c motors (A) ..... Aug. 311

**Applied Mechanics**

Considerations in the design of structural models (A)..... May 304
Design of double springs. Victor Tatarinov (RS) ..... Sept. 209
Design of round tubes for combined bending and torsion. R. A. Needham (RS) ..... Aug. 205
Designing by proportion. William Govan Oct. 179
Designing snap-action toggles. E. P. C. Schulze ..... Nov. 168
Dynamic loading of compression springs. K. W. Maier..... Mar. 162
Eliminating pulsations in chain drives. E. I. Radzimovsky..... July 153
Elimination of impact forces at pivots. Paul & Zaid (RS)..... Mar. 205
Four-bar linkages . . . as function generators. J. C. Wolford..... Oct. 166
Increasing the holding power of press-fits. Richard Haselett (RS)..... Apr. 209
Kinematic concepts that simplify design. M. F. Spotts..... May 152
Linkage layouts by mathematical analysis. Alfred Kuhlenkamp... Aug. 165
Nomograph for section modulus of pipes, tubes and shafts. J. J. Kerley Jr. (RS) ..... May 205
Parabolic cam with radially moving follower. R. Gruenberg (RS)..... Jan. 209
Plate cam design. Kloomok & Muffley. Pt 1 Feb. 156, Pt 2 May 155, Pt 3 Sept. 186
Response of dynamic systems. W. W. Soroka ..... Apr. 150
Rocking response of vibration—isolated equipment. W. W. Soroka..... Dec. 162
Shock isolation. W. W. Soroka.... June 167
Sleeve bearing design. Oscar Pinkus Aug. 134
Stress equations for strain gage rosettes. Perry & Lissner (RS).... July 207
Three-dimensional nomograms. D. P. Adams ..... Aug. 186
Torsion spring design. E. L. Albright June 136
Two-degree-of-freedom nomogram. A. Yorgiadis (RS) ..... Jan. 205

**Assembly**

Economical hand truck assembly (PD) Apr. 148
How to determine assembly tolerances (A) ..... Apr. 305
Low cost assembling machine (PD) July 144
Simplifying assemblies with spring-steel fasteners (MS) ..... Oct 164
Stitcher heads speed plywood crate assembly (PD) ..... Feb. 144

**Atomics**

Army gets its first reactor..... Nov. 194
Extra-maneuverable manipulator (PD) May 140
Pillar of fire and a cloud..... Jan. 174
Proposed nuclear power plant (H). Apr. 5
Radioisotopes as design tools. A. M. Smith ..... May 129
Zirconium alloy for nuclear reactors Oct. 171

**Automotive**

Cargo carrier for difficult terrain (PD) Nov. 164
Coaxial design features Chrysler power steering (PD) ..... Feb. 153
Continental Mark II—a luxury item (N) ..... Oct. 198
Lift is synchronized hydraulically (PD) Sept. 156
New twist in suspension systems (N) Feb. 202
Product Development Conference—Yale & Towne discuss development program of the G52 line of industrial trucks ..... Oct. 129
Synthetic elastomeric materials (A) Oct. 295
Transistorized automobile radio (H) July 5
Turbocharged 286-hp diesel drives new track-type tractor (PD)..... Oct. 144
Weight savings with aluminum help truckers (N) ..... Oct. 200

## —B—

**Bearings**

Bearing loads on geared shafts. Zbigniew Jania (RS)..... June 209
Integral-seal ball bearings. Bragdon & Monich ..... Nov. 179
Large ball bearings. Lloyd Jones Jr. Oct. 156
Plastic impregnated bearing runs dry (N) ..... Sept. 199
17 ball bearing problems—answers. Apr. 195
Sleeve bearing design. Oscar Pinkus Aug. 134

**Belt Drives**

Ten types of belt drives. G. R. Lederer (MS) ..... May 172

**Bonding**

Adhesive bonded metal joints. Schwartz & Wittman..... July 170
Adhesive bonding. J. L. Been..... May 181
Strength of adhesive bonded metal joints (H) ..... Nov. 5

**Brakes, Mechanical**

Design of toothed mechanical components. L. N. Canick (RS)..... Dec. 219

**Brazing**

Titanium brazing (H)..... Aug. 5

## —C—

**Cams**

Parabolic cam with radially moving follower. R. Gruenberg (RS)..... Jan. 209
Plate cam design. Kloomok & Muffley. Pt 1 Feb. 156, Pt 2 May, 155, Pt 3 Sept. 186
Plate cam tables (RS)..... Feb. 211

**Capacitors**

Capacitor for high temperature use (H) July 5

**Casting**

Die cast insert redesign cuts production costs. E. L. Kelly..... Nov. 193
Malleable gating (A)..... Apr. 290
Plaster mold casting. R. B. Anderson Feb. 193
Sand-casting to precision finish (A) Feb. 307
Zinc die castings basis of polisher design (PD) ..... Feb. 146

**Ceramics**

Simplified method of applying cermets (H) ..... July 5

**Chain Drives**

Eliminating pulsations in chain drives. E. I. Radzimovsky..... July 153
Pulsations in chain drives—six mechanisms for reducing dynamic loads. E. I. Radzimovsky (MS)..... July 168

**Clutches, Mechanical**

Design of toothed mechanical components. L. N. Canick (RS)..... Dec. 219
Magnetic one-shot clutch controls torque in power screwdriver (PD) Sept. 160

**Compressors**

Compact motor compressor (PD)..Apr. 145

**Computers**

Computer analysis of industrial control regulating systems (A)..... June 314
High-density tape for digital computers Oct. 188
Punched-card fed high-speed printer (PD) ..... June 144
Using punched-card equipment for automatic machine tool control. A. H. Stillman ..... June 172
Versatile digital recorder (PD).... Aug. 143

(A) Abstract. (C) New Components. (Ed) Editorial. (H) Highlights. (MS) Mechanical Spread. (N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.

**Control Systems**

Applications of differential winch to control systems. Hulse Jr. & Aymar (MS) ....June 184
Drive-and-control package (C)....June 214
Electrohydraulics in machine tools. A. Durr ....Dec. 129
Electronic temperature controller (H) Aug. 5
Electronically controlled hobbing machine (PD) ....July 138
Low inrush control (A)....Oct. 294
Magnetic amplifiers as control components. Walter La Pierre....Aug. 129
Photoelectric controls (MS)....Nov. 186
Pilot control devices. G. W. Heumann May 187
Pneumatic amplifier and motor controls and drives machine or process (C) May 206
Programming system speeds up spectrographic analysis (PD)....Mar. 144
Spark-gap tracer control (PD)....Sept. 148
Using punched-card equipment for automatic machine tool control. A. H. Stillman ....June 172

**Control Systems, Hydraulic**

Aeration in lubrication and hydraulic systems. B. R. Walsh....May 136
Directional valves for hydraulic circuits. Warren Brown....June 186
Hydraulics for high horsepower applications. M. A. Hayden....Feb. 129
Servo system keeps 9-ton load level (PD) ....Mar. 150
Theory of hydraulic flow control. N. M. Sverdrup ....Apr. 161

**Corrosion**

Caviation attack in ultrasonic equipment. Dr. L. A. Petermann....Sept. 173

**Cylinders, Hydraulic**

Lift is synchronized hydraulically (PD) ....Sept. 156

—D—

**Design**

Amplifier packaged for resistance to shock and humidity (PD)....Nov. 166
Angularly adjustable hob head (PD) Oct. 154
Automatic electro-pneumatic drill unit (PD) ....Apr. 146
Automatic lubricators satisfy dual requirements (PD) ....Nov. 159
Automatically positioned turret punch press (PD) ....Sept. 144
Beading techniques for strengthening sheet metal parts. Bernhard Rogge July 183
Cabinet design for complex equipment. R. H. Tanner....June 177
Cargo carrier for difficult terrain (PD) Nov. 164
Centrifugal ratchet (PD)....Oct. 155
Coaxial design features Chrysler power steering (PD)....Feb. 153
Comet crash inquiry aids future aircraft design (N) ....Jan. 197
Considerations in the design of structural models (A)....May 304
Contactors redesigned for durability and simplicity (PD)....Aug. 140
Design considerations in the use of reinforced plastics (A)....July 295
Design Engineering Show (Ed)....Dec. 127
Designing by proportion. William Govan ....Oct. 179
Designing for production . . . reducing waste. W. H. Halliday (MS)....Apr. 178
Designing the product to suit human dimensions. R. H. Hose....Sept. 166
Dial controlled stitching (PD)....Nov. 162
Double springs design. Victor Tatarinov (RS) ....Sept. 209
Dual purpose tool attachment (PD) July 146
Economical hand truck assembly (PD) Apr. 148
Electronically controlled hobbing machine (PD) ....July 138
Elevating hand truck (PD)....Aug. 146
Engineering shows in Chicago a "must" for design engineers (N)....Aug. 192
Extra-maneuverable manipulator (PD) May 140
Four-bar linkages . . . as function generators. J. C. Wolford....Oct. 166
Friction devices for intermittent rotary motion. W. M. Halliday (MS)....Aug. 176
Gas burner redesigned for serviceability (PD) ....Mar. 164
Germany is marching again (Ed)..Oct. 127
Harness wiring design. Jerry Blevins. Dec. 135
Heating unit, low cost, long life (PD) May 147
High-power lever-action rifle (PD) Sept. 158
High speed screw machine (PD)..Sept. 154
Highway mower with high-speed low-upkeep (PD) ....May 144
How to determine assembly tolerances (A) ....Apr. 305
Hydraulically driven thread miller (PD) ....Nov. 156
Influence of automation on machine-tool design (A)....Jan. 289
Kinematic concepts that simplify design. M. F. Spotts....May 152
Larger forgings (PD)....Dec. 140
Lift is synchronized hydraulically (PD) ....Sept. 156
Liquid-cooled generators. Buxton & Dunfee ....Aug. 178
Low cost assembling machine (PD). July 144
Magnetic one-shot clutch controls torque in power screwdriver (PD) Sept. 160
Metals developments enlarge design horizons ....Jan. 136
Method of designing round tubes for combined bending and torsion. R. A. Needham (RS) ....Aug. 205
Miniaturization secret of midget tape recorder (PD) ....Feb. 148
Motion picture projector redesigned (PD) ....Aug. 148
Outboard motor with electrical starting (PD) ....Oct. 150
Plastics making new designs possible Jan. 146
Plate cam design. Kloomok & Muffley. Pt 1 Feb. 156, Pt 2 May 155, Pt 3 Sept. 186
Precision gear design charts. R. M. Gitlin (RS) ....Oct. 209
Preventing fire from electrical causes. H. A. Strickland Jr. ....Nov. 145
Producibility check lists. Roland Laveen ....Dec. 174
Punched-card fed high-speed printer (PD) ....June 144
Quick heating soldering gun (PD). July 143
Radioisotopes as design tools. A. M. Smith ....May 129
Re-engineered face grinder (PD)..Oct. 153
Resistor selection panel (PD)....Mar. 147
Selected Designs of Machine Elements Nov. 129
Selecting vibration isolators. Russell Lowe (MS) ....Sept. 184
Sharper definition reducing camera in simpler package (PD) ....May 148
Simplified functional welder (PD). June 150
Sleeve bearing design. Oscar Pinkus Aug. 134
Snap-action toggle design. E. F. C. Schulze ....Nov. 168
Spanish Talgo ready for U. S. railroads (N) ....July 194
Spark-gap tracer control (PD)....Sept. 148
Specifying and designing test stands. Canner & Welch....Mar. 156
Spring-action pulsation absorber (PD) Oct. 155
Stitching machine uses free needle (PD) ....Apr. 140
Tandem dieing machine (PD)....July 147
Toothed mechanical components design. L. N. Canick (RS)....Dec. 219
Torsion spring design. S. L. Albright June 136
Turbocharged-286-hp diesel drives new track-type tractor (PD)....Oct. 144
Turret lathe designed for operator convenience (PD) ....Sept. 140
23 design tips for sheet metal fabrication. V. J. Furio....May 166
Versatile digital recorder (PD)....Aug. 143
Waffle beading for stiffening sheet metal panels. Bernhard Rogge..Aug. 171
What users want in the design of machine tool controls and drives..Sept. 162
Yardsticks of perfection (Ed)....July 127
Zinc die castings basis of polisher design (PD)....Feb. 146

**Differential**

Applications of differential winch to control systems. Hulse Jr. & Aymar (MS) ....June 184

**Drafting**

Drafting procedures should be standardized. H. H. Ash....Aug. 162
Reducing costs in the drafting room. H. E. Grant....June 193

—E—

**Economics**

Defense Department's reserve tool program for fiscal 1956 approved (P) July 123
Engineering economics. R. R. Allen Feb. 187
Mergers—FTC survey (P)....Oct 123
Producibility check lists. Roland Laveen ....Dec. 174
Supply outlook for copper, aluminum, steel, lead, zinc, titanium, manganese, nickel and plastics (H)....Sept. 123
Watchmaking in the U. S. (P)....Aug. 123

**Editorials**

An engineer speaks out....Apr. 127
Design Engineering Show....Dec. 127
Engineers and education....May 127
For welfare or destruction....Jan. 127
Fruitful troublemakers....Feb. 127
Germany is marching again....Oct. 127
Humans on the chance curve....Mar. 127
Make the job interesting....Aug. 127
Real test ....Nov. 127
Too much pressure....June 127
Without regard to the past....Sept. 127
Yardsticks of perfection....July 127

**Education**

An engineer speaks out (Ed)....Apr. 127
Basic conflicts in engineering education (A) ....Apr. 300
Coming tidal wave of students. R. W. Van Houten ....Mar. 139
Engineers and education (Ed)....May 127
Russia surges to the fore in science Jan. 170

**Electronics**

Electronic switch for interrupting currents up to 5 amperes (H)....Sept. 5

**Engineering Administration**

Do engineers need executive development? (A) ....Oct 298
Engineering communications (A)..May 308
Fruitful troublemakers (Ed)....Feb. 127
Graduate engineers head world's largest industries ....Jan. 144
Producibility check lists. Roland Laveen ....Dec. 174
Product development—the project engineers place. L. Scheib....Dec. 189
Societies will move—but where?..June 192
Too much pressure (Ed)....June 127

**Engines and Engine Control**

Adaptable steam engine (PD)....May 151
Coal industry fights back with gas turbine (N) ....June 197
Looking inside an engine operation (N) Apr. 201
More power in smaller packages...Jan. 156
Outboard motor with electrical starting (PD) ....Oct. 150
Turbocharged 286-hp diesel drives new track-type tractor (PD)....Oct. 144

**Extruding**

Aluminum extrusions from the heavy press program. A. L. Hurst....Aug. 150
Low carbon steel extrusion. R. L. Hugo July 129

—F—

**Fastening**

Hub mounting without keys, set screws or pins (C) ....Dec. 224
Increasing the holding power of press-fits. Richard Haslett (RS)....Apr. 209
Simplifying assemblies with spring-steel fasteners (MS)....Oct 164

**Filters**

Two-stage, cleanable micronic filter (C) Nov. 216

**Finishes, Chemical**

Paint finishes. N. P. Gentieu....May 161
Phosphate finishes. N. P. Gentieu..Apr. 190
Protective coatings for electrical connections. H. B. Gibson....Apr. 156
Zinc coatings for protecting steel. E. W. Horvick ....Dec. 158

**Finishes, Mechanical**

Metallized plastic films. Thomas Hammer ....Aug. 182

**Fittings**

Quick disconnect and self-sealing couplings for fluid applications (MS).Dec. 168

**Flexible Shafts**

Flexible shafts. C. Hotchkiss Jr. ..Feb. 168

**Fluid Mechanics**

Reynolds number chart. George Loweke (RS) ....Apr. 213
Theory of hydraulic flow control. N. M. Sverdrup ....Apr. 161
Visual flow analysis. C. C. Perry...Aug. 154

**Forging**

Fabrication aspects of large structural components (A) ....Jan. 280
Larger forgings (PD)....Dec. 140
One-piece aluminum forgings (H)..Mar. 5

**Forming**

Beading techniques for strengthening sheet metal parts. Bernhard Rogge July 183
Waffle beading for stiffening sheet metal panels. Bernhard Rogge..Aug. 171

—G—

**Gear Drives**

Speed reducers—selection and application. Kayser & Thomas....July 174

(A) Abstract. (C) New Components. (Ed) Editorial. (H) Highlights. (MS) Mechanical Spread.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.

**Gears**

Bearing loads on geared shafts. Zbigniew Janla (RS) ....June 209
Design charts for precision gears. R. M. Gitlin (RS) ....Oct. 209
Economical gear grinder (PD)....June 152
Two short cuts for gear design. N. Akerman (RS) ....Mar. 209

**Glass**

Fillers and reinforcements. George Lubin ....Dec. 178
Glass-to-metal hermetically sealed terminals. Andrew Wyzenbeek....Feb. 180
New glass from oxides of antimony transmits greater range of infrared rays (H) ....June 5
New industrial uses for glass. R. L. Callard ....June 129

**Graphical Techniques**

Nomographs relating hydraulic, pneumatic and electrical energy. A. E. Maine (RS) ....Nov. 211
Plate cam design. Kloomok & Muffley Pt 1 Feb. 156, Pt 2 May 155, Pt 3 Sept. 186
Reynolds number chart. George Loweke (RS) ....Apr. 213
Shock isolation. W. W. Soroka...June 167
Theoretical capacity of gear pumps and motors. A. E. Maine (RS)....Dec. 223
Three-dimensional nomograms. D. P. Adams ....Aug. 186

**Grinding**

Economical gear grinder (PD)....June 152
Effect of grinding on steel (H)....Sept. 5
Re-engineered face grinder (PD)..Oct. 153

## —H—

**Human Engineering**

Designing the product to suit human dimensions ....Sept. 166

## —I—

**Instrumentation**

Indexing sources of information...Oct. 160
Programming system speeds up spectrographic analysis (PD)....Mar. 144
Recording systems. H. B. Jones Jr. Mar. 180
Ultrasonic instrument (H)....Feb. 5

**Insulation, Electrical**

Grommet seals, dampens vibration and insulates (C) ....Mar. 212
New insulating enamel for copper wire (H) ....Aug. 5
Protective coatings for electrical connections. H. B. Gibson....Apr. 156

## —J—

**Joining**

Preventing embrittlement in copper-to-aluminum weld joints. Carlson & Leedy ....Oct. 172

## —L—

**Legislation**

Legal aspects of standardization (P) Dec. 123
Mergers—FTC survey (P) ....Oct. 123

**Lubrication**

Aeration in lubrication and hydraulic systems. B. R. Walsh....May 136
Automatic continuous, jet and spray lubrication (C) ....Feb. 216
Automatic lubricators satisfy dual requirements (PD) ....Nov. 159
Comparison of six lubrication methods. Dr. B. Sternlich....Dec. 183

## —M—

**Machining**

Angularly adjustable hob head (PD) Oct. 154
Automatic electro-pneumatic drill unit (PD) ....Apr. 146
Automatically positioned turret punch press (PD) ....Sept. 144
Designing for production . . . reducing waste. W. M. Halliday (MS)....Apr. 178
Dual purpose tool attachment (PD) July 146
Electrohydraulics in machine tools. A. Durr ....Dec. 129
High speed screw machine (PD)..Sept. 154
Honeycomb becomes a frozen asset (N) Dec. 199
Hydraulically driven thread miller (PD) ....Nov. 156
Machine tool automation (A)....Apr. 304
Machining before welding. P. G. Lessman ....Mar. 186
Small amounts of metal bellows produced with low tooling charges (C) July 214
Spark-gap tracer control (PD)....Sept. 148
Sub-zero cold working of stainless steel (H) ....Oct. 5
Turret lathe designed for operator convenience (PD) ....Sept. 140
What users want in the design of machine tool controls and drives...Sept. 162

**Magnets**

Applications for permanent magnets (MS) ....Mar. 160
Bismanol—new magnetic material (H) May 5
Fundamental types of permanent magnets (MS) ....Feb. 178
Magnetic one-shot clutch controls torque in power screwdriver (PD) Sept. 160

**Materials Handling**

Elevating hand truck (PD) ....Aug. 146
Product Development Conference—Yale & Towne discuss development program of the G52 line of industrial trucks ....Oct. 129

**Mathematics**

Evaluating pythagorean equations. E. L. Schlage (RS)....May 201
Linkage layouts by mathematical analysis. Alfred Kuhlenkamp....Aug. 165
Plate cam tables (RS)....Feb. 211
Quequeing-up. R. K. Prince....Nov. 188
Two short cuts for gear design. N. Akerman (RS) ....Mar. 209

**Metals, Ferrous**

All ferrous metals resist corrosion (H) May 5
ASM Metal Congress selected papers (A) ....Jan. 284
Effect of grinding on steel (H)....Sept. 5
Embrittlement of steel by hydrogen. W. A. Bell....Mar. 189
Extruded low carbon steels. R. L. Hugo July 129
Fabricating ultra-high strength steel. Dietz & McCreery....Dec. 170
Heat resistant cast high alloys. C. K. Lockwood ....Feb. 163
High strength alloy steel powder metal parts ....Mar. 133
Metallic materials (H)....Jan. 5
Metals developments enlarge design horizons ....Jan. 136
New steel alloys (H)....Mar. 5
Outlook for steel (H)....Sept. 123
Production of metal powder parts in small volume (A)....Oct. 303
Stainless steel designations changed June 196
Sub-zero cold working of stainless steel (H) ....Oct. 5
Testing metals at —452 F....Mar. 196

**Metals, Nonferrous**

Alloy plating. R. T. Gore....Sept. 136
Aluminum-base copper-cadmium alloys. E. A. G. Liddiard....Jan. 192
Aluminum extrusions from the heavy press program. A. L. Hurst...Aug. 150
Aluminum in fractional horsepower motors (H) ....June 5
ASM Metal Congress selected papers (A) ....Jan. 284
Brazing titanium (H)....Aug. 5
Fiber metallurgy (H)....Nov. 5
Magnesium's future (P)....Nov. 123
Metallic materials (H)....Jan. 5
Metals developments enlarge design horizons ....Jan. 136
Needed: more aluminum (P)....May 123
Nickel-clad steel strip (H)....Apr. 5
Outlook for copper, aluminum, lead, zinc, titanium, manganese and nickel (H) ....Sept. 123
Rare earths (P)....June 123
Some stress-rupture and creep properties of molybdenum disilicide in the range 1600 to 2000 F (A)....Apr. 296
Spot welding of structural aluminum. W. R. Gain....Sept. 193
Super pure aluminum (H)....May 5
Testing metals at —452 F....Mar. 196
Titanium bolt strength. Joseph Viglione ....Apr. 129
Use of clad metals. Herbert Schwartz June 162
Zirconium alloy for nuclear reactors Oct 171

**Molding**

Reinforced plastic molders (H)...Apr. 5
Rubber molded continuously to any length (C) ....Sept. 214
Shell molding for short run production. F. K. Shallenberger....Mar. 175

**Motors**

A-c motor has integral stepless control (C) ....Aug. 210
Aluminum in fractional horsepower motors (H) ....June 5
Axial-air-gap motors for machine tool drives. John Merriell....Sept. 129
Compact motor compressor (PD)..Apr. 145
Drive-and-control package (C)....June 214
Electric motors for portable tools. J. H. Karr....June 156
Hydraulics for high horsepower applications. M. A. Hayden....Feb. 129
Low inrush control (A)....Oct. 294
NEMA rerate motors. S. F. Henderson Nov. 195
Operating three-phase motors from single-phase supply. I. B. Galter..Apr. 134
Outboard motor with electrical starting (PD) ....Oct. 150
Overload relays for motors. Jack Sheets Jan. 177
Safety in D-C motor controls. Beeman & Kantner ....Dec. 193
Variable speed A-c motor (C)....Sept. 215

**Motors, Hydraulic**

Hydraulically driven thread miller (PD) ....Nov. 156
Measuring performance of hydraulic machines. H. Stern....Nov. 150
Theoretical capacity of gear pumps and motors. A. E. Maine (RS)....Dec. 223

## —P—

**Patents**

Incentive to invention—a survey of patent compensation policies. R. E. Shafer ....Mar. 195
Patent office situation (P) ....Apr. 123
Patents and three new laws. H. A. Toulmin Jr. ....Mar. 193

**Personnel**

Do engineers need executive development? (A)....Oct. 298
Engineer shortage (P)....Mar. 123
Interviewing engineering job applicants. R. L. Ryder....July 158
Humans on the chance curve (Ed)..Mar. 127
Make the job interesting (Ed)....Aug. 127
Start looking for engineers....Apr. 198

**Piping**

Fluid transmission in high pressure systems. Walter Ernst....Oct. 135

**Plastics**

Arc resistance of plastics. Spiers & Wikstrand ....May 174
Design considerations of the use of reinforced plastics (A)....July 295
Fillers and reinforcements. George Lubin ....Dec. 178
Film forming materials (A)....Feb 309
Foam plastic sphere (H)....Sept. 5
Foamed isocyanates. K. P. Satterly Feb. 140
High-temperature durability of laminates (A) ....July 295
Kralastics. E. J. Trunk....Nov. 171
Metallized plastic films. Thomas Hammer ....Aug. 182
New designs made possible by plastics Jan. 146
New glass-in-plastic laminate (C)..Jan. 211
Nylon that extrudes and molds easily (C) ....June 216
Outlook for plastics (H)....Sept. 123
Plastic impregnated bearing runs dry (N) ....Sept. 199
Plastic wings for guided missiles (H) June 5
Polysulfide liquid polymer sealers. Snodcon & Middleton....Mar. 129
Premixed reinforced plastics (H)..Nov. 5
Properties and uses of reinforced plastics and other related materials (A) July 302
Reinforced plastic molders (H)....Apr. 5
Reinforced plastics and other related materials (A) ....June 313

**Plating**

Alloy plating. R. T. Gore....Sept. 136
Nickel plating by chemical reduction. W. J. Crehan....July 148

**Pneumatics**

Automatic electro-pneumatic drill unit (PD) ....Apr. 146
Pneumatic amplifier and motor controls and drives machine or process (C) May 206

(A) Abstract. (C) New Components. (Ed) Editorial. (H) Highlights. (MS) Mechanical Spread.
(N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.

**Product Development**

Duplicating service conditions. H. E. Mendoza ..... July 191
Flexible tube channels TV and telephone conversations (N) ..... Apr. 202
Fruitful troublemakers (Ed) ..... Feb. 127
How to set up a material specification system. Joseph Guraki ..... Oct. 189
Miniaturization secret of midget tape recorder (PD) ..... Feb. 148
Mysteries of electricity deepen ..... Jan. 163
Paper from synthetic fibers (H) ..... Apr. 5
Printed, high-resistance strain gages (H) ..... Aug. 5
Product development—the project engineers place. L. Scheib ..... Dec. 189
Product development, a running start. R. R. Allen ..... Sept. 179
Product Development Conference—a case history ..... Oct. 129
Production of metal powder parts in small volume (A) ..... Oct. 303
Real test (Ed) ..... Nov. 127
Sandwich panels: assembly, construction and uses (A) ..... Sept. 301
Science, statistics and reliability engineering (A) ..... Aug. 312
Testing for product performance. G. S. McCloy ..... July 189
Without regard to the past (Ed) ..... Sept. 127
Yardsticks of perfection (Ed) ..... July 127

**Professional Trends**

Graduate engineers head world's largest industries ..... Jan. 144

**Pumps**

Aeration in lubrication and hydraulic systems. B. R. Walsh ..... May 136
Centrifugal ratchet (PD) ..... Oct. 155
Hand pump with double acting piston (PD) ..... June 155
Hydraulic pumps. Vander Kaay, Murphy & Traut ..... July 132
Hydraulic pressure used to raise gear pump efficiency (C) ..... Apr. 214
Hydraulics for high horsepower applications. M. A. Hayden ..... Feb. 129
Measuring performance of hydraulic machines. H. Stern ..... Nov. 150
Spring-action pulsation absorber (PD) ..... Oct. 155
Theoretical capacity of gear pumps and motors. A. E. Maine (RS) ..... Dec. 223

—R—

**Rectifiers**

Silicon rectifiers handle kilowatts of power (C) ..... Oct. 214
Silicon rectifiers to aid miniaturization (N) ..... Feb. 203

**Relays**

Motor overload relays. Jack Sheets ..... Jan. 177

**Research**

Automatic literature searching papers (A) ..... May 306
Control of military research (P) ..... Jan. 123, Feb. 123
Electronics key to RCA's future developments (N) ..... Mar. 197
Mysteries of electricity deepen ..... Jan. 163
Research accelerates to four billion a year ..... Jan. 134
Science—from ancient day to modern times ..... Jan. 130
World's largest research laboratories ..... Jan. 160

**Rubber**

Molding rubber continuously to any length (C) ..... Sept. 214
Natural and synthetic rubber (H) ..... Mar. 5
Synthetic elastomeric materials (A) ..... Oct. 295

—S—

**Safety**

Preventing fire from electrical causes. H. A. Strickland Jr. ..... Nov. 145
Safety in D-C motor controls. Beeman & Kantner ..... Dec. 193

**Sans, Souci**

Ad libbing by the Editor ..... Jan 276, Feb. 304 Mar. 292, Apr. 288, May 302, June 308, July 292, Aug. 308, Sept. 298, Oct. 290, Nov. 308, Dec. 378

Science and Engineering — today and tomorrow—25th anniversary issue ..... Jan. 129-176

**Sealing**

Sealed electrical terminals
Pressure-tight connections for cold chamber testing. Brenner & Kraus ..... Oct. 195
Sealed panels simplify design and installation. J. I. Gifford ..... Oct. 196

**Seals**

Glass-to-metal hermetically sealed terminals. Andrew Wyzenbeek ..... Feb. 180
Grommet seals, dampens vibration and insulates (C) ..... Mar. 212
Integral-seal ball bearings. Bragdon & Monich ..... Nov. 179
Polysulfide liquid polymer sealers. Snoddon & Middleton ..... Mar. 129

**Soldering**

Quick heating soldering gun (PD) ..... July 143

**Springs**

Design of double springs. Victor Tatarinov (RS) ..... Sept. 209
Dynamic loading of compression springs. K. W. Maier ..... Mar. 162
Torsion spring design. S. L. Albright ..... June 136

**Stamping**

Fanned stamping cuts costs ..... June 182
Short-run stampings. D. A. Rogers ..... Nov. 174

**Standardization**

Drafting procedures should be standardized. H. H. Ash ..... Aug. 162
Gage numbers versus decimal dimensions. I. V. Williams ..... Oct. 161
Legal aspects of standardization (P) ..... Dec. 123
NEMA rerate motors. S. F. Henderson ..... Nov. 195
Problems of standardization programs ..... Nov. 178
Stainless steel designations changed ..... June 196

**Stress Analysis**

Control of residual stresses in practice (A) ..... Apr. 297
Designing by proportion. William Govan ..... Oct. 179
Experimental stress analysis methods. Durelli & Phillips ..... Jan. 182
Fatigue: the problem and some solutions (A) ..... Mar 295
Fatigue strength of butt welds in structural steels (A) ..... July 296
How to prevent fatigue failure. Joseph Vigilone ..... Oct 174
Predicting fatigue failures of notched specimens. R. A. Miller ..... Apr. 177
Printed, high-resistance strain gages (H) ..... Aug. 5
Residual stresses—how dangerous are they? (A) ..... Apr. 302
Some stress-rupture and creep properties of molybdenum disilicide in the range 1600 to 2000 F (A) ..... Apr. 296
Strain gage installation simplified (N) ..... Sept. 200
Stress equations for strain gage rosettes. Perry & Lissner (RS) ..... July 207

**Switches**

Contactors redesigned for durability and simplicity (PD) ..... Aug. 140
Electronic switch for interrupting currents up to 5 amperes ..... Sept. 5
Mercury jet switch. W. R. Davis ..... Oct. 185
Switch permits varying of operation sequences without rewiring (C) ..... Mar. 210

—T—

**Testing**

Cavitation attack in ultrasonic equipment. Dr. L. A. Petermann ..... Sept. 173
Creep tests on carbon molybdenum steel pipes (H) ..... Feb. 5
Duplicating service conditions. H. E. Mendoza ..... July 191
Lehigh University dedicates world's largest testing machine (N) ..... Nov. 198
Measuring performance of hydraulic machines. H. Stern ..... Nov. 150
Metals tested at —452 F ..... Mar. 196
Preventing embrittlement in copper-to-aluminum weld joints. Carlson & Leedy ..... Oct. 172
Product performance testing. G. S. McCloy ..... July 189
Sealed electrical terminals
Pressure-tight connections for cold chamber testing. Brenner & Kraus ..... Oct. 195
Sealed panels simplify design and installation. J. I. Gifford ..... Oct. 196
Specifying and designing test stands. Canner & Welch ..... Mar. 156
Strain gage installation simplified (N) ..... Sept. 200
Titanium bolt strength. Joseph Vigilone ..... Apr. 129
Velocity-type transducer heart of bearing tester (PD) ..... Mar. 154

**Timers**

Program molded on a single cam (C) ..... Jan. 210

**Transducers, Electrical**

Cavitation attack in ultrasonic equipment. Dr. L. A. Petermann ..... Sept. 173
Spark-gap tracer control (PD) ..... Sept. 148
Survey of non-contacting vibration pickups using electric fields (A) ..... June 311
Velocity-type transducer heart of bearing tester (PD) ..... Mar. 154

**Transistors**

Mysteries of electricity deepen ..... Jan. 163
Transistorized automobile radio (H) ..... July 5

**Transmissions, Electrical**

Eddy current press drives (A) ..... July 300

**Transmissions, Hydraulic**

High torque at low speeds with hydraulic transmission (C) ..... July 212
Plane propeller pitch changer in Buick dynaflow transmission ..... Feb. 150

**Transmissions, Mechanical**

Spherical steel shot transmits power (C) ..... Apr. 216

—V—

**Vacuum Tubes**

New trends and materials in vacuum tubes (N) ..... Nov. 200

**Valves**

All-plastic seamless valves (H) ..... Mar. 5
Directional valves for hydraulic circuits. Warren Brown ..... June 186
Protector valve for air-clutch-controlled equipment (C) ..... Aug. 212
Solenoid valves for fluid directional control. F. E. Reeves ..... July 162

**Vibration and Shock**

Amplifier packaged for resistance to shock and humidity (PD) ..... Nov. 166
Cavitation attack in ultrasonic equipment. Dr. L. A. Petermann ..... Sept. 173
Grommet seals, dampens vibration and insulates (C) ..... Mar. 212
New twist in suspension systems (N) ..... Feb. 202
Rocking response of vibration—isolated equipment. W. W. Soroka ..... Dec. 162
Selecting vibration isolators. Russell Lowe (MS) ..... Sept. 184
Shock isolation. W. W. Soroka ..... June 167

**Voltage Regulators**

A-C voltage regulators. W. P. Carpenter ..... Feb. 135
Resistor selection panel (PD) ..... Mar. 147

—W—

**Welding**

Machining before welding. P. G. Lessman ..... Mar. 186
Simplified functional welder (PD) ..... June 150
Spot welding from one side—with a portable gun. C. A. McClean ..... Apr. 180
Spot welding of structural aluminum. W. R. Gain ..... Sept. 193
Spot welds work well in titanium (A) ..... Aug. 310
Weldability of wrought high-alloy materials (A) ..... July 299

**Wiring**

Harness wiring design. Jerry Blevins ..... Dec. 135

—Y—

Yale & Towne Mfg. Co.—Product Development Conference ..... Oct. 129

(A) Abstract. (C) New Components. (Ed) Editorial. (H) Highlights. (MS) Mechanical Spread. (N) Technical News. (P) Perspective. (PD) Product Design. (RS) Reference Book Sheets.

# AUTHORS' INDEX

ADAMS, Douglas P.—Three-dimensional nomograms ..... Aug. 186
AKERMAN, Nigel—Two short cuts for gear design ..... Mar. 209
ALBRIGHT, S. L.—Torsion spring design ..... June 136
ALLEN, Robert R.—Engineering economics ..... Feb. 187
Product development, a running start ..... Sept. 179
ANDERSON, R. B.—Plaster mold casting ..... Feb. 193
ASH, H. H.—Drafting procedures should be standardized ..... Aug. 162
AYMAR, R. & A. B. Hulse Jr.—Applications of differential winch to control systems ..... June 184

BEEMAN, T. C. & R. H. KANTNER. Safety in D-C motor controls.... Dec. 193
BEEN, Jerome L.—Adhesive bonding ..... May 181
BELL, Winifred A.—The embrittlement of steel by hydrogen ..... Mar. 189
BLEVINS, JERRY. Harness wiring design ..... Dec. 135
BRAGDON, Carter T. & Michael T. Monich—Integral-seal ball bearings ..... Nov. 179
BRENNER, Morris & Lawrence Kraus—Pressure-tight connections for cold chamber testing ..... Oct. 195
BROWN, Warren—Directional valves for for hydraulic circuits ..... June 186
BUXTON, O. E. & C. R. Dunfee—Liquid-cooled generators ..... Aug. 178

CALLARD, R. L.—New industrial uses for glass ..... June 129
CANICK, L. N. Design of toothed mechanical components ..... Dec. 219
CANNER, Edwin M. & Betty S. Welch—Specifying and designing test stands ..... Mar. 156
CARLSON, C. L. & R. M. Leedy—Preventing embrittlement in copper-to-aluminum weld joints ..... Oct. 172
CARPENTER, William P.—A-C voltage regulators ..... Feb. 135
CREHAM, W. J.—Nickel plating by chemical reduction ..... July 148

DAVIS, William R.—Mercury jet switch ..... Oct. 185
DIETZ, JOHN & L. H. McCREERY. Fabricating ultra-high strength steel. Dec. 170
DUNFEE, C. R. & O. E. Buxton—Liquid-cooled generators ..... Aug. 178
DURELLI, A. J. & E. A. Phillips—Criteria for selcting experimental stress analysis methods ..... Jan. 182
DURR, A. Electrohydraulics in machine tools ..... Dec. 129

ERNST, Walter—Fluid transmission in high pressure systems ..... Oct. 135

FURIO, Victor J.—23 design tips for sheet metal fabrication ..... May 166

GAIN, William R.—Spot welding of structural aluminum ..... Sept. 193
GALTER, Irwin B.—Operating three-phase motors from single-phase supply ..... Apr. 134
GENTIEU, Norman P.—Paint finishes ..... May 161
Phosphate finishes ..... Apr. 190
GIBSON, Howard B.—Protective coatings for electrical connections ..... Apr. 156
GIFFORD, J. I.—Sealed panels simplify design and installation ..... Oct. 196
GITLIN, R. M.—Design charts for precision gears ..... Oct. 209
GORE, Robert T.—Alloy plating .... Sept. 136
GOVAN, William—Designing by proportion ..... Oct. 179
GRANT, H. E.—Reducing costs in the drafting room ..... June 193
GRUENBERG, Rudolph—Parabolic cam with radially moving follower .. Jan. 209
GURSKI, Joseph—How to set up a material specification system ..... Oct. 189

HALLIDAY, W. M.—Designing for production . . . reducing waste .... Apr. 178
Friction devices for intermittent rotary motion ..... Aug. 176
HAMMER, Thomas—Metallized plastic films ..... Aug. 182
HAYDEN, M. A.—Hydraulics for high horsepower applications ..... Feb. 129
HAZELETT, Richard—Increasing the holding power of press-fits ..... Apr. 209
HENDERSON, S. F.—NEMA rerate motors ..... Nov. 195
HEUMANN, G. W.—Pilot control devices ..... May 187
HORVICK, ERNEST W. Zinc coatings for protecting steel ..... Dec. 158
HOSE, Robert H.—Designing the product to suit human dimensions ..... Sept. 166
HOTCHKISS, C. JR.—Flexible shafts ..... Feb. 168
HUGO, R. L.—Extruded low carbon steels ..... July 129
HULSE, A. B. JR. & R. Aymar—Applications of differential winch to control systems ..... June 184
HURST, A. L.—Aluminum extrusions from the heavy press program .. Aug. 150

JANIA, Zbigniew—Bearing loads on geared shafts ..... June 209
JONES, Howland B. Jr.—Recording systems ..... Mar. 180
JONES, Lloyd Jr.—Large ball bearings ..... Oct. 156

KANTNER, R. H. & T. C. BEEMAN. Safety in D-C motor controls.... Dec. 193
KARR, J. H.—Electric motors for portable tools ..... June 156
KAYSER, H. W. & R. J. Thomas—Speed reducers—selection and application ..... July 174
KELLY, Edward L.—Die cast insert redesign cuts production costs .... Nov. 193
KERLEY, James J. Jr.—Nomograph for section modulus of pipes, tubes and shafts ..... May 205
KLOOMOK, M. & R. V. Muffley—Plate cam design ..... Pt 1 Feb. 156
Pt 2 May 155, Pt 3 Sept. 186
KRAUS, Lawrence & Morris Brenner—Pressure-tight connections for cold chamber testing ..... Oct. 195
KUHLENKAMP, Alfred—Linkage layouts by mathematical analysis .. Aug. 165

LA PIERRE, Walter—Magnetic amplifiers as control components ..... Aug. 129
LAVEEN, ROLAND. Producibility check lists ..... Dec. 174
LEDERER, George R.—Ten types of belt drives ..... May 172
LEEDY, R. M. & C. L. Carlson—Preventing embrittlement in copper-to-aluminum weld joints ..... Oct. 172
LESSMAN, F. G.—Machining before welding ..... Mar. 186
LIDDIARD, E. A. G.—Aluminum-base copper-cadmium alloys ..... Jan. 192
LISSNER, H. R. & C. C. Perry—Stress equations for strain gage rosettes ..... July 207
LOCKWOOD, C. K.—Heat resistant cast high alloys ..... Feb. 163
LOWE, Russell—Selecting vibration isolators ..... Sept. 184
LOWEKE, George—Reynolds number chart ..... Apr. 213
LUBIN, GEORGE. Fillers and reinforcements ..... Dec. 178

MAIER, Karl W.—Dynamic loading of compression springs ..... Mar. 162
MAINE, A. E.—Nomographs for relating hydraulic, pneumatic and electrical energy ..... Nov. 211
Theoretical capacity of gear pumps and motors ..... Dec. 223
McCLEAN, C. A.—Spot welding from one side—with a portable gun ..... Apr. 180
McCLOY, G. S.—Testing for product performance ..... July 189
McCREERY, L. H. & JOHN DIETZ. Fabricating ultra-high strength steel. Dec. 170
MENDOZA, H. E.—Duplicating service conditions ..... July 191
MERRIELL, John—Axial-air-gap motors for machine tool drives ..... Sept. 129
MIDDLETON, J. C. & W. J. Snoddon—Polysulfide liquid polymer sealers ..... Mar. 129
MILLER, Roy A.—Predicting fatigue failures of notched specimens .. Apr. 177
MONICH, Michael T. & Carter T. Bragdon—Integral-seal ball bearings. Nov. 179
MUFFLEY, R. V. & M. Kloomok—Plate cam design ..... Pt 1 Feb 156
Pt 2 May 155, Pt 3 Sept. 186
MURPHY, Ray J. & others—Hydraulic pumps ..... July 132

NEEDHAM, Robert A.—Design of round tubes for combined bending and torsion ..... Aug. 205

PAUL, Burton & Melvin Zaid—The elimination of impact forces at pivots ..... Mar. 205
PERRY, C. C.—Visual flow analysis .. Aug. 154
PERRY, C. C. & H. R. Lissner—Stress equations for strain gage rosettes ..... July 207
PETERMANN, Dr. L. A.—Cavitation attack in ultrasonic equipment .. Sept. 173
PHILLIPS, E. A. & A. J. Durelli—Criteria for selecting experimental stress analysis methods ..... Jan. 182
PINKUS, Oscar—Sleeve bearing design ..... Aug. 134
PRINCE, R. K.—Quequeing-up .... Nov. 188

RADZIMOVSKY, Eugene I.—Eliminating pulsations in chain drives ..... July 153
Pulsations in chain drives—six mechanisms for reducing dynamic loads ..... July 168
REEVES, Frank E.—Solenoid valves for fluid directional control ..... July 162
ROGERS, Dayton A.—Short-run stampings ..... Nov. 174
ROGGE, Bernhard—Beading techniques for strengthening sheet metal parts ..... July 183
Waffle beading for stiffening sheet metal panels ..... Aug. 171
RYDER, Frederick L.—Interviewing engineering job applicants ..... July 158

SATTERLY, Kenneth P.—Foamed isocyanates ..... Feb. 140
SCHEIB, L. Product development — the project engineers place ..... Dec. 189
SCHLAGE, Ernest L.—Evaluating pythagorean equations ..... May 201
SCHULZE, Erwin F. C.—Designing snap-action toggles ..... Nov. 168
SCHWARTZ, Herbert—Use of clad metals ..... June 162
SCHWARTZ, R. T. & R. E. Wittman—Adhesive bonded metal joints .... July 170
SHAFER, Richard E.—Incentive to invention ..... Mar. 195
SHALLENBERGER, Frank K. — Shell molding for short run production ..... Mar. 175
SHEETS, Jack—Motor overload relays ..... Jan. 177
SMITH, Arthur M.—Radioisotopes as design tools ..... May 129
SNODDEN, W. J. & J. C. Middleton—Polysulfide liquid polymer sealers ..... Mar. 129
SOROKA, Walter W.—Response of dynamic systems ..... Apr. 150
Rocking response of vibration—isolated equipment ..... Dec. 162
Shock isolation ..... June 167
SPIERS, C. F. & W. C. Wikstrand—Arc resistance of plastics ..... May 174
SPOTTS, M. F.—Kinematic concepts that simplify design ..... May 152
STERN, H.—Measuring performance of hydraulic machines ..... Nov. 150
STERNLICH, DR. BENO. Comparison of six lubrication methods ..... Dec. 183
STILLMAN, Alan H.—Using punched-card equipment for automatic machine tool control ..... June 172
STRICKLAND, H. A. Jr.—Preventing fire from electrical causes ..... Nov. 145
SVERDRUP, Nils M. — Theory of hydraulic flow control ..... Apr. 161

TANNER, Robert H.—Cabinet design for complex equipment ..... June 177
TATARINOV, Victor—Design of double springs ..... Sept. 209
THOMAS, R. J. & H. W. Kayser—Speed reducers—selection and application ..... July 174
TOULMIN, H. A. Jr.—Patents and three new laws ..... Mar. 193
TRAUT, William & others—Hydraulic pumps ..... July 132
TRUNK, Eugene J.—Kralastics ..... Nov. 171

VON HOUTEN, Robert W. — The coming tidal wave of students ..... Mar. 139
VANDER KAAY, Henry A. & others—Hydraulic pumps ..... July 132
VIGLIONE, Joseph—How to prevent fatigue failure ..... Oct. 174
Strength of titanium bolts ..... Apr. 129

WALSH, B. R.—Aeration in lubrication and hydraulic systems ..... May 136
WELCH, Betty S. & Edwin M. Canner—Specifying and designing test stands ..... Mar. 156
WIKSTRAND, W. C. & C. F. Spiers—Arc resistance of plastics ..... May 174
WILLIAMS, I. V.—Gage numbers versus decimal dimensions ..... Oct. 161
WITTMAN, R. E. & R. T. Schwartz—Adhesive bonded metal joints .... July 170
WOLFORD, James C. — Four-bar linkages . . as function generators. Oct. 166
WYZENBEEK, Andrew — Glass-to-metal hermatically sealed terminals ... Feb. 180

YORGIADIS, Alexander—Two-degree-of-freedom vibration nomogram .... Jan. 205

ZAID, Melvin & Burton Paul—The elimination of impact forces at pivots. Mar. 205

**The following two pages index articles appearing in the Annual Handbook of Product Design for 1956. These articles are indexed by title—complete subject reference can be obtained by referring to the Handbook.**

# EDITORIAL CONTENT for 1956 Handbook Issue

## SECTION A—GENERAL ENGINEERING

Engineering Problems in Continuous Automated Production ..... A 2
Drawing Notes Proposed to Assure Interchangeable Parts by P. G. Belitsos ..... A 8
Linear Sine Paper for Engineering Applications by M. David Prince ..... A 12
Mechanical and Electronic Computers in the Engineering Department by Ascher Opler ..... A 14
Operations Research for Industrial Use by Edward C. Varnum ..... A 18
Component Selection for Environmental Conditions by Arthur H. Koppel ..... A 20a
Radioisotopes in Research and Industry ..... A 21
New Books ..... 40

## SECTION B—METALS AND ALLOYS

Engineering Survey on Ductile Iron ..... B 2
Vanadium and Molybdenum in Manganese Cast Steel by Charles C. Spencer ..... B 8
Strength of Cast Alloys at 1,200 F by Joseph R. Lane ..... B 10
New Designations for Aluminum Alloys ..... B 12
New Aluminum Forging Alloys ..... B 13
Effect of Elevated Temperatures on Mechanical Properties of Magnesium ..... B 14
High Temperature Properties of Nimonic 95 ..... B 19
Nickel-Aluminum Alloys for High Temperature Applications ..... B 20
Cermets for Thermal Shock by J. A. Stavrolakis ..... B 22
Cermets of Titanium Carbide With Nickel Binder ..... B 25
Stress Rupture and Tensile Strength of Thermenol ..... B 26
Fabrication Properties of Pre-Plated Metals ..... B 28
New Books ..... A 36

## SECTION C—NON-METALLIC MATERIALS AND FINISHES

Hard Chromium Plated Parts by Warren Schmidt and William E. Hogan ..... C 2
Ceramics for Mechanical Applications by Robert F. Rea ..... C 5
High Temperature Coatings for Metals by A. H. Sully ..... C 8
The Future of Vacuum Coatings by J. G. Seiter ..... C 12
Properties of Laminated Thermosetting Plastic Sheet ..... C 14
Glass Polyester Permix Plastics by R. B. White ..... C 17
Designing With Plastics ..... C 19
Plastics for Mechanical Components ..... C 22
Specially Treated Felts ..... C 26
New Books ..... B 64

## SECTION D—FABRICATION AND PRODUCTION PROCESSES

Roll Formed Toothed Parts by Harry Pelphrey ..... D 2
Milling by Chemistry by Manuel C. Sanz ..... D 4
Designing Parts for Economical Machining by W. M. Halliday ..... D 6
How to Work Stainless Steels ..... D 9
Frozen Mercury Process for Investment Castings by Irvin R. Kramer ..... D 13
Powder Metal Process and Part Design by George Stern and J. F. Kuzmick ..... D 14
Dimensional Tolerances for Investment Castings by R. L. Wood ..... D 16
Rubber Forming of Thin-Walled Parts by Frank R. Simpson ..... D 17
Dual-Metal Centrifugal Castings by A. E. Schuh and M. F. Samuels ..... D 20
Designing and Fabricating With Clad Steel Plate by H. F. Peters ..... D 22
Cold Forming Process for Hollow Parts by Claus L. Sporck ..... D 24
New Books ..... C 68

## SECTION E—POWER TRANSMISSION

Surface Endurance Limits For Gear and Cam Materials by G. J. Talbourdet ..... E 2
Inserts for Plastic Gears by Louis D. Martin ..... E 6
Racks for Enclosed Spindles and Sleeves by Fred Rogers ..... E 8
Factors Affecting Chain Drive Selection ..... E 10
General Equation For Solving All Planetary Gear Ratios by M. J. Waclawek ..... E 12A
Expanding-Shoe Friction Clutch Design by M. J. Cohen ..... E 13
Coupling of Parallel Shafts by H. G. Conway ..... E 16
New Books ..... D 76

## SECTION F—MECHANICAL PARTS AND DESIGN ANALYSIS

Frictional and Surface Damage Characteristics of Metals by C. L. Goodzeit, R. P. Hunnicutt, and A. E. Roach . . F 2
Control of Residual Stresses by George Sachs . . . F 6
Fatigue Characteristics of Spring Materials by F. P. Zimmerli and W. P. Wood . . . F 10
Acceleration In Harmonic Motion by Nils M. Sverdrup . . . F 13
System Protection Through Filtration . . . F 14
Analysis of Plain Journal Bearings by G. B. Du Bois and F. W. Ocvirk . . . F 18
AISI Standard Alloy Steel Compositions . . . F 23
Minimum Standard for Carbon Steel Castings . . . F 24
Simplified Calibration of Photoelastic Models by James H. Flanagan . . . F 26
Avoiding Gear Tooth Interference by Reiner J. Auman . . . F 28
Base Pitches for Involute Spur Gears in Five Tooth Systems by John D. Howell . . . F 32
Buckling and Moment Table for Steel Beams by L. P. Hollingsworth . . . F 35
Properties of Spring Materials and Allowable Working Stresses by Harold C. R. Carlson . . . F 38
Nomograph for Weights of Tubes by Carl Nachod . . . F 41
Non-Rubbing Seals for Oil Retention by David C. Spaulding, Jr . . . F 42
Rubbing Seals for Oil Retention by David C. Spaulding, Jr . . . F 44
Calculating the Area of Curved Surfaces by Victor Tatarinov . . . F 46
New Books . . . E 88

## SECTION G—FASTENING AND JOINING

Adhesive Bonding In Structural Applications . . . G 2
Strength of Tapped Holes by C. J. Oxford and J. A. Cook . . . G 6
Design of Parts With Chased Threads . . . G 10
Titanium Bolts and Fasteners . . . G 12
Assembly and Maintenance of Bolted Flanged Joints . . . G 14
Applications of Helical Wire Inserts by Paul E. Wolfe . . . G 16
Tensile Strength of Brazed Joints by Nikolajs Bredzs . . . G 18
Ultrasonic Fluxless Soldering by W. C. Potthoff . . . G 22
Silver Brazing of Refractory Metals by C. H. Chatfield . . . G 23
Brazing Processes and Filler Metals . . . G 25
Joining Circular Parts Without Fasteners . . . G 26
Fastening Sheet-Metal Parts by Tongues, Snaps or Clinching . . . G 28
New Books . . . F 82

## SECTION H—MOTORS, ENGINES AND CONTROLS

Hydraulic Valve Lifter Design by Paul L. Vermaire . . . H 2
Design and Performance of Small Diesel Engines by B. W. Millington and M. H. Howarth . . . H 6
Two-Cycle Engines—Design and Performance . . . H 10
Electrical Braking for Machine Tool Applications by H. W. Jones . . . H 14
Power Control Circuits and Their Components by John C. Ponstingl . . . H 17
Standard Motor Torque and Temperature Data . . . H 22
Synchronous Motor Drives by C. D. Lawton . . . H 23
New Books . . . G 66

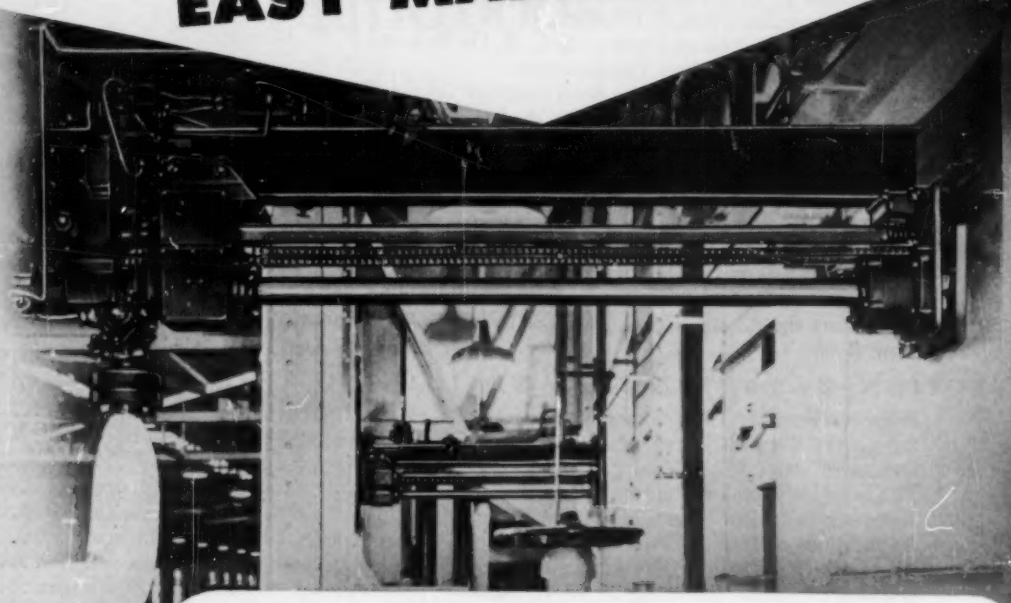
## SECTION I—ELECTRICAL AND ELECTRONIC COMPONENTS

Future of Vacuum Tubes and Transistors . . . I 2
Wiring Design to Avoid Pickup by Gerald Weiss . . . I 6
Electronic Design Checking List . . . I 10
Standard Symbols for Electronics . . . I 12
Wheatstone Bridge Charts for Transducer Circuits by Wayne A. Ring . . . I 15
Magnetic Amplifiers for Control Circuits . . . I 18
Thermistor Nomograph by Victor W. Bolie . . . I 22
Speed Switching Circuits Using Nonlinear Elements by Basil T. Barber . . . I 23
Movable and Fixed Core Motion Transducers by Albert E. Newton . . . I 26
Photoelectric Relays and Circuits by G. F. Ball . . . I 29
Removing Heat From Electronic Devices by George S. Smolensky . . . I 32
New Books . . . H 68

## SECTION J—HYDRAULIC AND PNEUMATIC EQUIPMENT

Heat In Hydraulic Circuits by James K. Douglas . . . J 2
Optimum Clearances In Pumps and Hydraulic Motors by Warren E. Wilson . . . J 6
Viscosity Conversion Chart . . . J 10
New Techniques for Hydraulic Servo Design by James M. Nightingale . . . J 11
Turbine Pumps—Their Design and Application by C. L. Abramson . . . J 16
Stress Chart for Thick Cylinders by H. M. Durham . . . J 18
Pneumatic-Electric Relays by W. W. O'Hara . . . J 20
Pneumatic Power for Automatic Control Systems by S. Y. Lee and J. L. Shearer . . . J 22
High Pressure Pneumatic Circuits for Aircraft by Paul L. Brady . . . J 26
New Books . . . I 110

# LOW FRICTION
# SELF-CLEANING
# EASY MAINTENANCE



## VULCAN BLOWERS RELY ON ATLAS
## *for longer trouble-free service*

As the jets move in and out on Vulcan Long Retractable Soot Blowers, manufactured by Copes-Vulcan Division, Continental Foundry & Machine Co., they depend on Atlas Roller Chain to supply the positive drive that needs little lubrication, is self-cleaning and is easily maintained.

Wherever a positive drive is required—low or high speed—there's an Atlas Roller Chain and "precision-matched sprocket" for low maintenance performance. Atlas Chain is toughened for extra wear by an exclusive heat treating process which builds greater strength and wear resistance into every pin, roller and link. It is pre-tested by a series of torture-tests that assure outstanding service on grueling drives or rugged shock loads.

For full rated speeds on your machine, longer wear, lower maintenance get the roller chain with the service "extras". . . pre-tested more than 30 times for longer trouble-free service. Get Atlas Roller Chain and Sprockets . . . write for the Atlas Catalog and Handbook.
